

SANFORD WATER DISTRICT

REQUEST FOR HYDRANT FLOW TEST

The undersigned requests that a hydrant flow test(s) be performed nearby the location below:

Location at which the hydrant flow test(s) is requested:

The undersigned agrees to pay to the District in full before the results of the hydrant flow test(s) are released. The charge for performing hydrant flow test(s) are as follows;

For flow test for non-municipal purposes, including but not limited to flow tests performed for new or proposed projects, the charge for a single hydrant flow test shall be \$150.00. For each additional hydrant flow test concurrently administered at the same time for the same project, an additional \$50.00 will be charged.

The District will perform the hydrant flow test(s) as timely as possible, however, scheduling of personnel and water quality considerations may delay the ability to perform the hydrant flow test(s). The District will attempt to flow as close to the requested location as possible but may need to adjust the location due to runoff and erosion issues.

The arrangement of the hydrant flow test(s) will be coordinated between the undersigned and the District ahead of performing the test(s).
